WEATHER GUARD FOR FORD/CHEVROLET/GMC VAN?

HERE'S HOW IT WORKS

Before you take delivery of your new FORD or CHEVROLET/GMC Van, contact your local WEATHER GUARD® product distributor to select the equipment or equipment package that fits your exact needs. Bring in the equipment quote to your FORD or CHEVROLET/GMC dealer. The dealer will add the cost of the equipment to the price of your van and deduct the available reimbursement through the FORD COMMERCIAL CONNECTION PROGRAM or the CHEVROLET/GMC "OPTION B" UPFIT REIMBURSEMENT PROGRAM. The dealer will arrange the upfitting of the equipment and you'll be ready to go.

All WEATHER GUARD equipment qualifies for the FORD and the CHEVROLET/GMC Programs as does other equipment available from your local upfitter. Remember!! You must be a commercial customer and you must notify your dealer prior to delivery to qualify for either of these programs.

For more information about the
FORD COMMERCIAL CONNECTION PROGRAM
 or the
CHEVROLET/GMC "OPTION B" UPFIT PROGRAM
 for commercial customers call:

CHEVROLET EXPRESS GMC SAVANA

Full Size Van Interiors

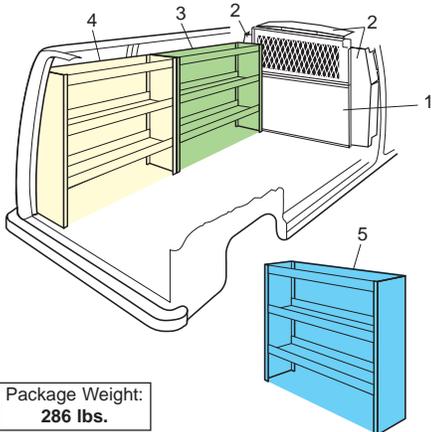

We have put together a variety of prepackaged interiors specifically designed for the Chevy Express and GMC Savana full size vans.

- Shows how different components work together.
- Tailors the van equipment to the specific needs of individual tradesmen.
- Allows for a modular approach to van interiors.
- Modules are designed so that a module from one prepackaged interior may be interchanged with the same color banded module from another interior.
- Modules within each color band may be interchanged freely.
- Four basic modules are:
 1. Bulkhead & stabilizer module (White Band)
 2. Driver side front module (Green Band)
 3. Driver side rear module (Yellow Band)
 4. Passenger side module (Blue Band)

When mounting over wheel well, 36" units may need to be modified to fit.

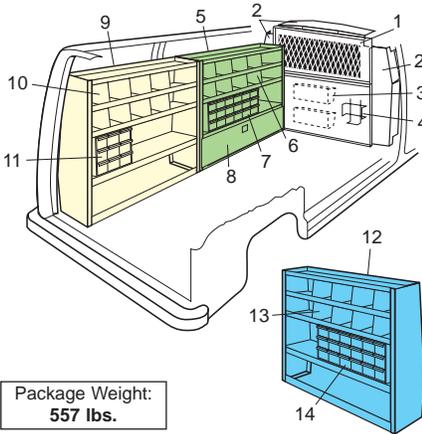

The dimensions shown in this guide refer to the 2003 model year full size Chevy Express / GMC Savana. Dimensions printed in blue refer to the 135" wheel base vans, dimensions printed in red refer to the 155" wheel base vans. Dimensions printed in black are common to both. You should always measure your van carefully to make sure the equipment you choose will fit properly.

Note: Do not interfere with movement range of the seat belt when installing equipment.

When selecting your vehicle equipment, please keep in mind that the weight of the vehicle combined with the total weight of the equipment package must be within the vehicle manufacturer's completed vehicle weight guidelines.

When mounting over wheel well, 36" units may need to be modified to fit.

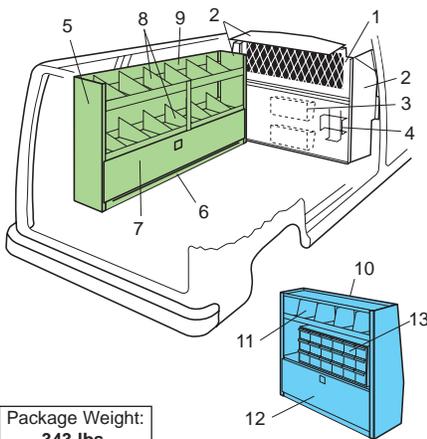

The dimensions shown in this guide refer to the 2003 model year Chevy Astro and GMC Safari Mini Vans. You should always measure your van carefully to make sure the equipment you choose will fit properly.

Note: Do not interfere with movement range of the seat belt when installing equipment.

When selecting your vehicle equipment, please keep in mind that the weight of the vehicle combined with the total weight of the equipment package must be within the vehicle manufacturer's completed vehicle weight guidelines.

Above: Model 600-2005 Van Package for Electrical Contractors is shown installed in a Sprinter Van.

We have put together a variety of prepackaged interiors based on a 140" wheel base, high roof Sprinter van body. If you have a different wheel base van, please refer to fitting guide.

- Shows how different modules and components work together.
- Tailors the Sprinter van equipment to the specific needs of individual tradesmen.
- Allows for a modular approach to Sprinter van interiors.
- Modules are designed so that a module from one Sprinter van interior may be interchanged with the same color banded module from another sprinter van interior.
- Four basic modules are:
 1. Bulkhead module
 2. Driver side front module (Green Band)
 3. Driver side rear module (Yellow Band)
 4. Passenger side module (Blue Band)

VAN SHELVING

weather guard

Steel straps help to anchor shelf units to the side wall of the van.

Adjustable steel shelf dividers are included.

Shelves feature 3" lips and are notched on 3" centers for dividers.

Formed angle steel mounting brackets run the full depth of the shelf unit.

Shelves and end panels are pre-punched for easy attachment of accessories.

WEATHER GUARD®
Equipment-Your assurance of quality van equipment.

EASY TO ASSEMBLE INTERLOCKING END PANELS

All van shelves will interlock with the bayonet type clips located in the end panels. Shelf units can be quickly assembled without hardware by a single person. Once shelf spacing is determined, bolts can be installed into prepunched holes and tightened into place.

Above: Standard Shelf Unit installed in a mini van. Also shown are accessory bin boxes.

8938-3	60 $\frac{1}{4}$ " L shelf	59 $\frac{1}{2}$ " L x 14 $\frac{1}{2}$ " H	10 lbs.
8939-3	69 $\frac{1}{4}$ " L shelf	68 $\frac{1}{2}$ " L x 14 $\frac{1}{2}$ " H	12 lbs.

ACCESSORY CABINET MOUNTING KITS
 (Not Shown) Allows cabinets to be mounted on shelves with 3" lips.

Model	Used For	Ship Wt.
7220	14" D shelf units	1 lb.
8078-3	18" D shelf units	3 lbs.
8088-3	24" D shelf units	4 lbs.

SHELF CENTER SUPPORTS
 (Shipped in pairs, not shown)
 All 51 $\frac{1}{4}$ " L x 24" D shelf units, and all 60 $\frac{1}{4}$ " L and 69 $\frac{1}{4}$ " L shelf units include shelf center supports.

Model	Used For	Ship Wt.
8816-3	43 $\frac{3}{4}$ " H shelf units	5 lbs.
8817-3	59 $\frac{1}{2}$ " H shelf units	12 lbs.

WELDED SHELF UNITS

weather guard[®]

- Fully arc-welded and no assembly means E-Z to install.
- Set unit in the van and anchor it in place!
- Angled design allows a snug fit to the van side wall.
- Constructed of a combination of 12, 17, 18 and 20 gauge steel, puts the strength where it is most needed.
- Finished with Bright White powder coat Finish.

WEATHER GUARD[®] EQUIPMENT
Your assurance of quality van equipment.

Mounting brackets make it E-Z to fasten to the side wall.

Eliminates assembly time. Pop into van and install.

The center two shelves are prepunched for bolt-on dividers.

Both E-Z Cube end panels are angled for a 13" width at the bottom.

Hemmed edges for extra strength.

Bottom shelf is prepunched for E-Z installation of parts cabinets.

The bottom retainer lip is 12 gauge steel and is prepunched for the E-Z attachment of door accessory.

BULKHEAD PANELS & STABILIZER KITS

Note: Bulkhead panels and stabilizer kits are designed to fit vehicle designs at time of catalog printing

Bulkhead Panels are Ordered Separately.
Does not include stabilizer kit.

- Bulkhead panels are the center load protection panel area of the bulkhead.
- The panels are made of brake formed 17 gauge steel.
- They have pre-punched holes for easy installation of paperwork pockets (two provided) and other accessories.
- All assembly hardware included. Installation hardware included with stabilizer kits.

*Advantages
of a Custom Fit
Bulkhead:*

- It separates the driver's compartment from the cargo area for maximum protection from shifting loads.
- Provides a better seal for heating and cooling efficiency.
- Looks better and provides an easier, more solid installation.

FOR FULL SIZE AND MINI VANS!

Stabilizer Kits are Ordered Separately.
They do not include bulkhead panel.

Each stabilizer kit includes a top stabilizer, driver side stabilizer and passenger side stabilizer. See page 28 for corresponding WEATHER GUARD® Bulkhead Panels to fit stabilizer kits.

• The top stabilizer is customized to fit your van. It will contour to fit the roof line of the van and has a special knock-out panel for use with bulkhead doors.

**STABILIZER
KIT**

• The passenger side stabilizer is contoured at an angle to allow easy access from the side door entry, and is also customized for a snug fit.

• The driver side stabilizer is engineered for a custom fit. It provides better security for the cargo area and does not interfere with shoulder restraints.

BULKHEAD PANELS AND STABILIZER KITS MAKE FOR A COMPLETE CUSTOM FIT BULKHEAD.

SCREEN BULKHEAD

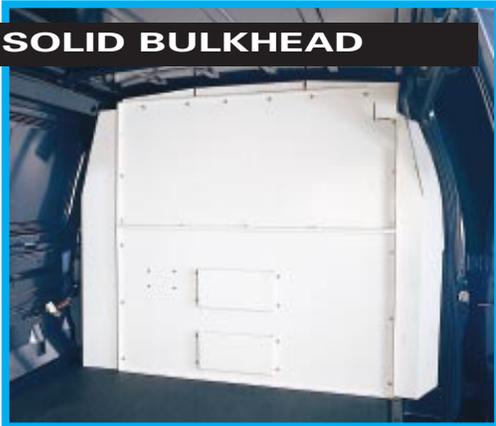

The Screen Bulkheads are designed for excellent driver protection and ease of installation.

WINDOW BULKHEAD

Window Bulkheads with Lexan® windows offer the ultimate in visibility.

SOLID BULKHEAD

Solid Bulkheads offer the driver maximum protection from shifting loads.

SWING DOOR BULKHEAD

Swing Door Bulkheads provide easy walk-through access to the rear cargo area.

SLIDING DOOR BULKHEAD

Sliding Door Bulkheads provide easy access to the rear cargo area with ball bearing mounted door slides. Will not fit Chevy Express or GMC Savana Vans

DRIVER/PASSENGER SIDE PANELS

Single panels are available for the driver or passenger side or both. Used together, they leave a walk through.

ALUMINUM DROP DOWN LADDER RACK

EZ-GLIDE™ SYSTEM

weather guard®

If you have to climb your van before you climb your ladders, you need the new EZ-GLIDE™ System from WEATHER GUARD® Van Equipment. This aluminum drop down ladder rack is the easiest rack you'll ever use. Its hydraulic action assists with raising and lowering your ladders with just a flip of a lever.

We have paid a great deal of attention to detail in designing this ladder rack to match your needs and expectations. This modular lightweight aluminum design eliminates the problem of unsightly rust associated with ordinary steel ladder racks. The WEATHER GUARD® EZ-GLIDE™ System is designed to fit most full size vans, mini vans, hi-cubes, and Sprinter vans. The distinctive RED TIPS* are your assurance of our WEATHER GUARD® Equipment quality promise. Check out these innovative features.

Create-A-System

- Removable ladder stops give you the ability to add kits, or accessories to match your needs.
- Ladder stops also serve as a basic ladder rack.

Non-Rusting

- Stainless steel fasteners and non-metallic bushings resist bi-metal corrosion.
- Lightweight aluminum design eliminates unsightly rust.

Fasten and Secure

- Interlocking ladder supports ensure ladders stay in place when stowed.
- Secure ladders with the padlock locking feature.
- Includes a ladder pad to minimize abrasion

Ergonomic Drive Arm

- Simple to use. Just grab hold and walk with drive arm to activate.
- Extra strength rotation point provides maximum durability.

Optional Accessories

- Velcro straps ensure ladders are secure for a smooth quiet ride.
- Mirror, mirror holder, and warning light attach easily to rack. (Not shown)

EZ-GLIDE™ System Hydraulic Cylinder

- Standard high endurance hydraulic assist adjusts to speed of descent.
- Reduces down time from back related injuries.

*The RED TIPS are a U.S. registered trademark of Knaack Mfg. Co.

STEP LADDERS

Models 251, 252, 253, 254, 255, 256, 257, 281, 283, 285, 287 will accept a 6' and 8' step ladder with a bottom width not exceeding 27". Repositioning of the ladder stops is required if the bottom width of the ladder is between 25" and 27½". An accessory cross member may be required depending on the distance between the front and rear cross members.

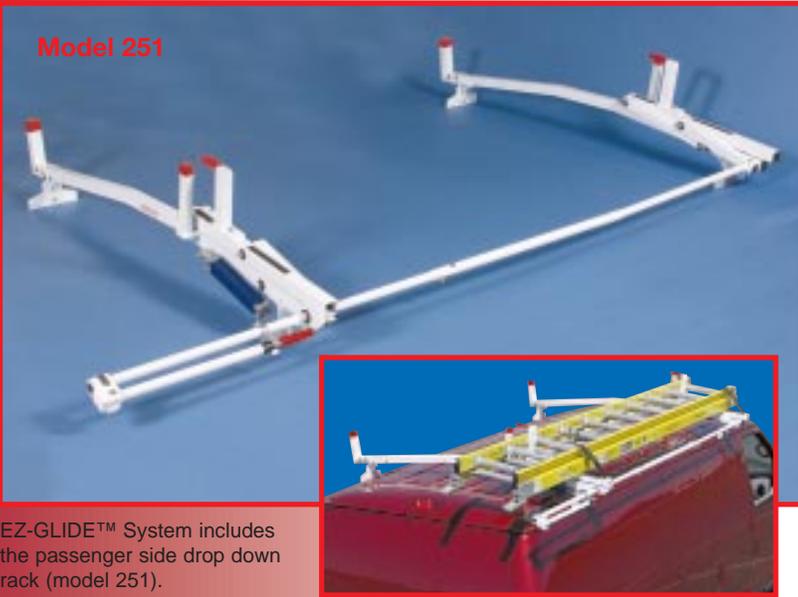

ALUMINUM DROP DOWN LADDER RACK

weather guard®

EZ-GLIDE™ SYSTEM

Create a modular system solution to meet your storage requirements. Choose from our full size van/mini van packages and add a drivers side kit or any accessory to meet your storage needs. Already have a WEATHER GUARD® Quick Clamp rack? Not a problem, just choose from one of our retrofit kits and convert your ladder rack into an EZ-GLIDE™ System. Own a hi-cube or Sprinter Van? Again, no problem, choose from one of our many fine offerings suited for these vehicles. WEATHER GUARD® Equipment has made choosing and adapting easy. Just another innovative feature offered by WEATHER GUARD® Truck and Van Equipment.

Model 251

EZ-GLIDE™ System includes the passenger side drop down rack (model 251).

FULL SIZE VAN/MINI VAN EZ-GLIDE™ SYSTEM RACKS

These packages are designed to fit full size vans, Chevrolet Astro, and GMC Safari mini van. Each of these racks come standard with a passenger side drop down system and a basic ladder rack on the driver's side. Weight capacity for drop down rack only is 75 lbs.

Model 251Ship Wt. 62 lbs.

Fits Ford Full Size Van, Dodge Full Size Van. Mounts to the rain gutters.

Model 252Ship Wt. 62 lbs.

Fits '96 and Newer Chevrolet Express Van, '96 and Newer GMC Savana Van. Mounts to the rain gutters.

Model 2503Ship Wt. 1 lbs.

Fitsl EZ-Glide™ System Racks
except 280, 282, 284, 286

QUICK CLAMP RACKS

weather guard[®]

ALUMINUM FOR FULL SIZE VANS

MODEL 234-3

Additional support and stability is provided by the addition of center mounting legs.

Ladder hooks on the front end of the side rail have been extended and angled outward for easier loading of ladders in tight spaces.

Cross members are 3/16" extruded aluminum.

Mounting legs are 3/16" formed aluminum with bolt on stainless steel gutter clamps and hardware.

The distinctive, trademarked RED TIPS are your assurance of WEATHER GUARD[®] Equipment quality.

- Designed to make loading and unloading your ladder an easy, one-person operation.
- Side rails run the full length of the van and are hooked on the front end, providing a convenient pivot point. Lean the front of the ladder against the front hook and swing the back up onto the rack. Close the Quick Clamp gas spring assisted clamping mechanism, and you are ready to go.
- Includes stainless steel mounting hardware.

Above: Model 234-3 mounting leg with stainless steel gutter clamp.

Above: Patented Quick Clamp Rack Clamping Mechanism. Quick Clamp Racks can be locked with a padlock for security

Above: Model 234-3 center mounting leg with gutter clamp.

ACCESSORIES

The Model 233-3 Accessory Cross Member works only with the Models 234-3 and 236-3 Quick Clamp Racks. It will allow you to position the accessory cross member in the center to accommodate both short and long ladders, and will also provide additional support.

QUICK CLAMP RACKS FOR FULL SIZE VANS:

Model 234-3Ship Wt. 76 lbs.

Dual clamp Quick Clamp Rack with clamps on both street and curb side of van.

Model 236-3Ship Wt. 73 lbs.

Single clamp Quick Clamp Rack with clamp on curb side only.

Model 233-3Ship Wt. 21 lbs.

Accessory Cross Member for Quick Clamp Rack. ('96 model year and newer Chevy Express and GMC Savana Vans require Model 235-3 Accessory Clamp Kit - see below.)

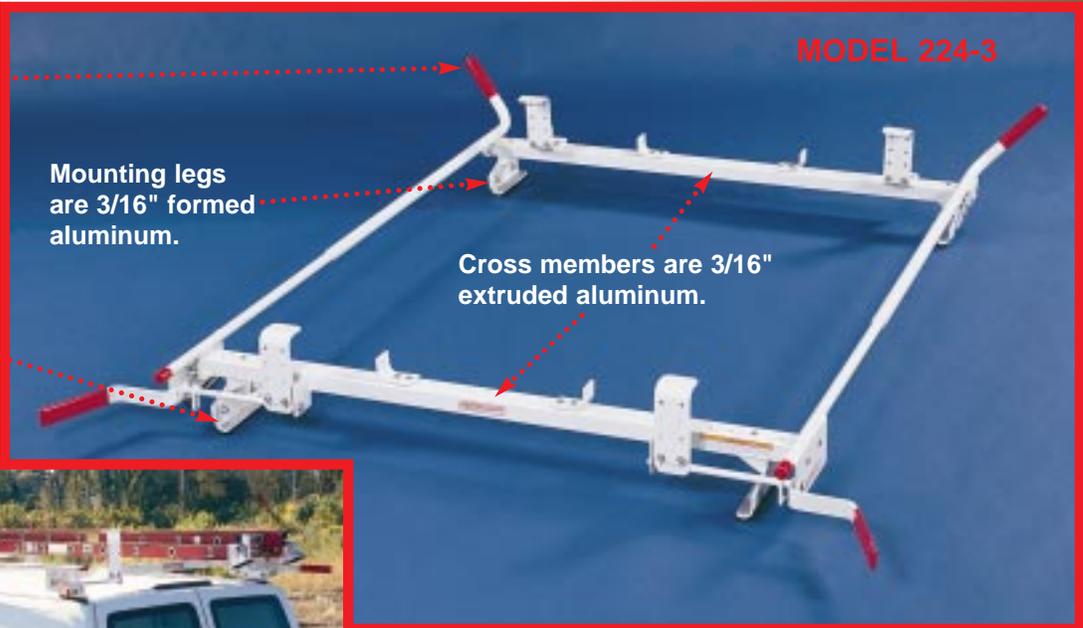

MODEL 235-3 ACCESSORY GUTTER CLAMP KIT

The '96 model year and newer Chevy Express and GMC Savana full size vans will require the Model 235-3 Accessory Clamp Kit. The kit contains 6 clamps and will be sufficient for installing a Quick Clamp Rack and an Accessory Cross Member. See page 45 for ordering information.

FOR MINI VANS

Ladder hooks on the front end of the side rail have been extended and angled outward for easier loading of ladders in tight spaces.

Special elastomer mounting pads are included to provide a weather tight seal around mounting bolts.

- Fits mini vans.
- Designed to make loading and unloading of ladders and equipment an easy one-person operation.
- Cross members are made of 3/16" extruded aluminum.
- Heavy 3/16" formed aluminum mounting legs are designed to rotate so they will easily adjust to the contours of the van roof.
- Includes stainless steel mounting hardware.

Above: Model 224-3 bolt through mounting leg.

Above: Patented Aluminum Quick Clamp Rack clamping mechanism.

QUICK CLAMP RACKS FOR MINI VANS:	
Model 223-3	Ship Wt. 41 lbs.
Single clamp Quick Clamp Rack with clamp on curb side only.	
Model 224-3	Ship Wt. 46 lbs.
Dual clamp Quick Clamp Rack with clamps on both street and curb side of van.	
Model 225-3	Ship Wt. 16 lbs.
Accessory Cross Member, Quick Clamps Racks for mini vans.	

ACCESSORIES

**MODEL 225-3
ACCESSORY
CROSS MEMBER**

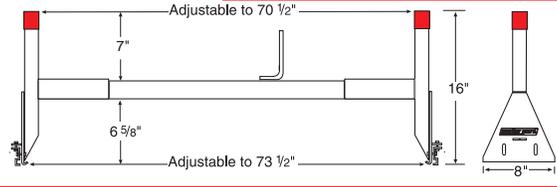

The Model 225-3 Accessory Cross Member works only with the Models 223-3 and 224-3 Quick Clamp Racks. It will allow you to position the accessory cross member in the center to accommodate both short and long ladders, and will also provide additional support.

See page 30 for the Van Rack Fitting Guide .

VAN RACK ACCESSORIES

“The Professionals’ Choice”

CONDUIT CARRIERS

with

ARMOR-TUF Clear Coat!

- **Model 239 Conduit Carrier** may be used for carrying all types of conduit, pipes, tubing and bar stock.
- Can be mounted inside the van and used as a convenient place to keep blue prints and drawings.
- Purchase locally a section of standard 6" PVC (9ASTM D2665) plastic drain pipe.
- Attach the end caps with PVC cement and install on the ladder rack with the mounting clamps provided. No holes to drill.
- Lockable with padlock, not provided.

NOTE: PVC not included. Coordinate the length of the PVC with the length of conduit you'll be carrying.

Model 239...Ship Wt. 4 lbs.

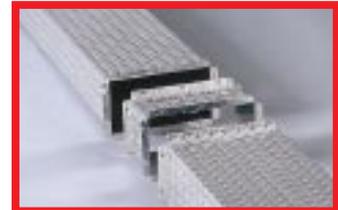

Above: **Model 237 Aluminum Conduit Carrier.**

ARMOR-TUF CLEAR COATING IS A CLEAR, BAKED-ON, POLY-ESTER FINISH THAT MAINTAINS THE SHINY LOOK OF DIAMOND PLATE ALUMINUM FOR YEARS TO COME.

Below: **Model 218-3 All-Purpose Rack with Model 239 Conduit Carrier installed on a mini van.**

- **Model 237 Aluminum Conduit Carrier** provides fully enclosed storage for conduit and pipe.
 - Constructed of .063 tread plate aluminum.
 - Spring-up rear door makes it easy to load and unload materials.
 - Unit is lockable, padlock not included, to protect material from theft.
 - Fits all WEATHER GUARD® Ladder Racks.
 - Measures: 121½" L x 11" W x 6" H
- Model 237.....Ship Wt. 40 lbs.**

Above: **Model 238 Conduit Carrier Extension.**

For slightly longer material, you'll find this 6" extension a handy item.
6" L x 11" W x 6" H
Model 238...Ship Wt. 4 lbs.

See pages 32 - 43 for WEATHER GUARD® Van racks to fit your needs!

LADDER GUIDE

Designed for extension ladders!

Above: **Model 240-3 Ladder Guide installed on a Model 209-3 Aluminum All-Purpose rack and a full size van.**

- **Model 240-3 Ladder Guide** makes it easier to load an extension ladder from the rear of the van by guiding it into position.
- This aluminum product is finished with Bright White Powder Coat Finish.
- Attaches to the cross members on a van rack.
- Adjustable to the width of the extension ladder being installed.
- Designed to be installed on Models 205-3/205-5, 215-3/215-5, 216-3/216-5, 209-3, 219-3, 229-3, 211, 212, and 213 racks only.

148½" L x 16-24" W (adjustable)
Model 240-3...Ship Wt. 34 lbs.

A special material is used on the base of the ladder guides that allows the ladder to easily slide onto the rack and protects the ladder from scratches and wear and tear.

Protect Your Ladders With The WEATHER GUARD® LADDER GUIDE!

FOR FULL-SIZE VANS ONLY

- Excellent for hauling all types of materials...Wide enough for 4 foot wide loads.
- The eight cross members spread the load evenly to protect the entire roof of the van and will support the flimsiest of long materials.
- When hauling long items be sure to secure the material properly to the rack for safe transport.
- Installation is easy, no holes to drill, and all hardware is provided.
- The OVAL RAIL DESIGN side rail is unique to WEATHER GUARD[®] Equipment.

The front and rear cross members extend over the end of the van to protect the van when loading ladders and other long materials.

Cross members are constructed out of 13 gauge, 1 1/4"x 1 1/4" inch square steel tubing.

Tie downs may be bolted on anywhere along the side rail where convenient.

The air foil eliminates wind noise at the maximum speed limit and mounts to the front of the cross member.

Mounting bracket to fit all full size vans.

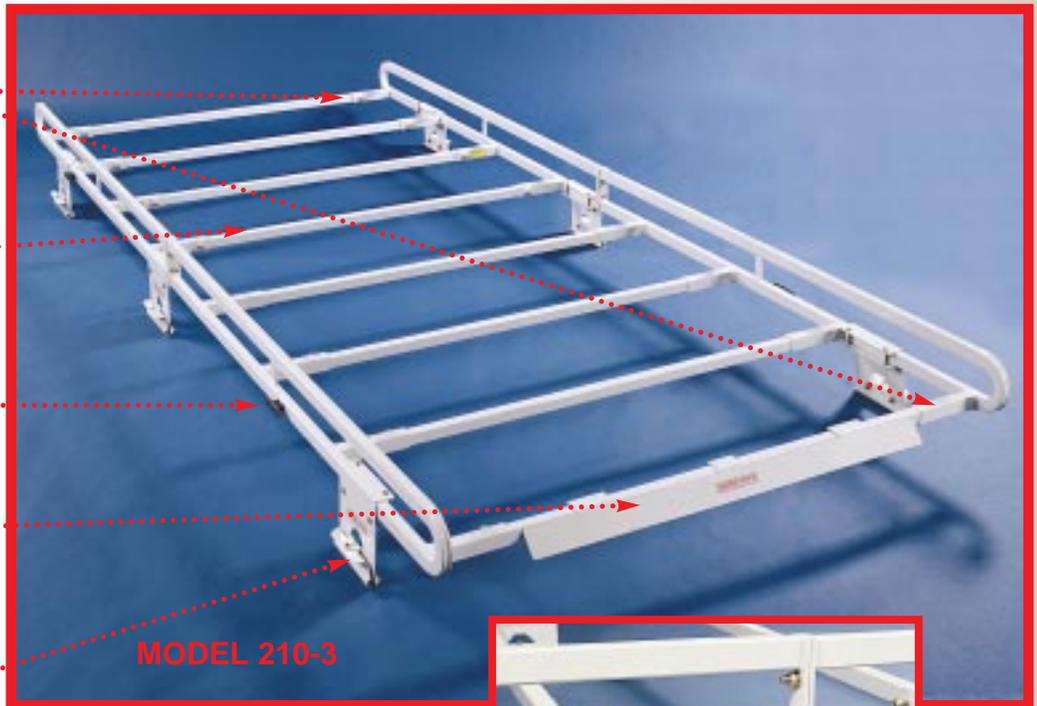

Measurements:

- Length of rails - 150 3/4"
- Distance, rear to front cross member - 140"
- Cross members - 20" on center.
- Mounting bracket locations - adjustable.
- Center leg height adjusts for '92 and newer Ford vans and '96 and newer GM vans.

Note: Special care should be taken to keep loads within reasonable limits, keeping in mind how the load will affect the van's center of gravity, roadability and load rating.

Model 210-3Ship Wt. 205 lbs.

Model 2096-3 Clamp Kit Required For:
'96 & newer Chevy Express/GMC Savana Vans.

Above: Model 210-3 Safari Rack adjustable center mounting leg with bolt on gutter clamp.

Above: Model 210-3 Safari Rack installed on a full size van.

Three pairs of eight inch wide 12 gauge steel mounting plates rest in the gutter of the van and are held in place securely with the exclusive WEATHER GUARD[®] clamp mechanism.

PACK RAT® DRAWER UNITS

weather guard®

MODEL 307-3

Full width ribs underneath and inside the unit add extra strength.

Top and sides of cabinet are 14 gauge plate steel.

Anti-skid strips prevent slipping.

Heavy duty pull out drawer units are designed to mount in either the rear or side door opening and offer easy access to small items without having to crawl in and out of van.

Drawer channels are 18 gauge steel.

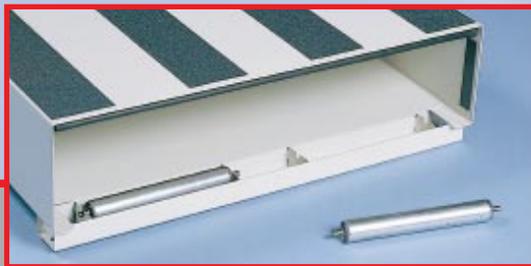

The RED PUSHBUTTON* is your assurance of WEATHER GUARD® Equipment quality.

Bottom of cabinet is 20 gauge steel reinforced with full length 12 gauge steel skids.

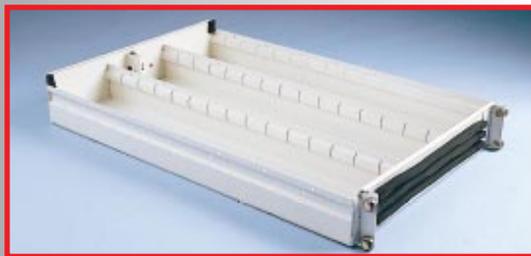

Drawers have a 425 lb. load rating.

Fully weather stripped.

Front, bottom and back of drawer is 12 gauge steel.

Removable Roller Bearings Provide Trouble Free Operation

For ease of maintenance, drawers are completely removable

- Low-profile provides concealed and secure storage for heavy items without greatly reducing van cargo area.
- Reinforced construction allows material to be loaded on top of unit.
- Drawer compartments are approximately 9 3/4" wide and can be divided.
- ONE-TOUCH Pushbutton Latch System allows easy, one-hand operation.

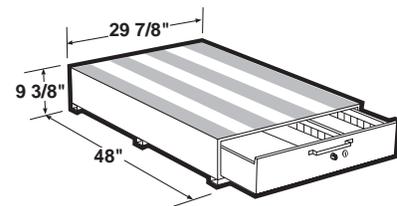

*The RED PUSHBUTTON is a U.S. registered trademark of Knaack Mfg. Co.
